CLINICAL EXPERIENCE

Behavioral Directions, LLC, Lansdowne, VA

Executive Director and Founder, June, 2001 – present

Responsibilities: Development and oversight of long standing, successful consulting practice serving families, public and private schools, and other agencies to promote best practice for education and treatment of individuals with autism, genetic disorders, developmental disabilities and behavior disorders using the science of Behavioral Psychology and Applied Behavior Analysis. Focused on compassionate care for parents and other caregivers. Integrated behavioral psychology and behavior analysis as an effective means of treatment via consultation, training of various stakeholders, and multi-year oversight of a center-based ABA clinic. Developed strong, positive collaboration with related professionals (e.g., educators, agencies, related providers) in outreach to improve client outcomes and advocated for ethical, best practice interventions at the local, state and national level. Effectively navigated creation and effective implementation and supervision of telehealth and digital services for practice to ensure evidence-based assessment and treatment services continued during pandemic restrictions for continuity of care, and

continued to develop telehealth as a means to increase effective service delivery to date. Established and facilitated executive functioning and parent support groups for children with autism and related disorders. Hired, trained and supervised support staff (e.g., BCBA's, BCaBA's, RBTs) to implement high integrity services in clinic, school and community settings and determined outcomes. Established agency as a credentialed practicum site for the Florida Institute of Technology (FIT) Master's Program in Professional Behavior Analysis, and oversee graduate students' practicum work. Provided ongoing trainings and seminars to local agencies, parent groups and professional organizations (e.g., APBA, ABAI and chapter affiliates). Conducted business development in billing and marketing operations from start-up to ongoing delivery of clinical services and navigated insurance contracting to increase client access to services. Participated in building awareness for autism and related disorders at local charity, speaking and fundraising events.
